- **Submission table** - All customer forms

WORKFLOW 1: INVITE A CUSTOMER

When to use this:

When you want to send a customer a form link via email.

Steps:

1. Click **Create Invitation**
2. Fill in the modal:
 - **Name:** Customer's full name
 - **Email:** Where they'll receive the link
 - **Phone:** Customer's phone number
 - **Form Type:** Choose:
 - **Customer** = Auto insurance form
 - **Property** = Home insurance form
3. Click **Send Invitation**

What happens:

- ✓ Email sent to customer with unique link
- ✓ Link expires in 10 minutes
- ✓ Customer fills out form
- ✓ Submission appears in dashboard

Example email link:

<https://baldwin.claysites.com/customer.html?token=abc123xyz>

WORKFLOW 2: VIEW A SUBMISSION

When to use this:

When you want to see what a customer submitted.

Steps:

1. Find the submission in the table
2. Click **View**
3. Modal opens showing all data as:
 - Field Name → Value
 - Raw JSON at bottom for reference
4. Click outside modal or close to dismiss

What you can see:

- ✓ All customer-entered data

- ✓ Household members (if added)
- ✓ Vehicles (if added)
- ✓ Coverage options selected
- ✓ Notes and comments

WORKFLOW 3: DELETE A SUBMISSION

When to use this:

When you need to remove a duplicate or incorrect submission.

Steps:

1. Find the submission in the table
2. Click **Delete**
3. Confirm: "Are you sure you want to delete?"
4. Click **OK**

Important:

- This action CANNOT be undone
- Data is permanently removed
- Ask customer to resubmit if needed

WORKFLOW 4: EXPORT DATA TO EXCEL

When to use this:

When you want to download all submissions for reporting, filtering, or analysis.

Steps:

1. Click **Export CSV**
2. File downloads automatically
3. Open in Excel, Google Sheets, or similar

What's in the CSV:

- **Columns:** ID, Invite Name, Email, Phone, Form Type, + all customer fields
- **Rows:** One row per submission
- **Data:** All household members and vehicles included in JSON

How to use it:

- Sort by Form Type (Customer vs Property)
- Sort by Submitted date
- Filter by name or email
- Create pivot tables for analysis
- Share with underwriters
- Archive for records

WORKFLOW 5: REFRESH SUBMISSIONS

When to use this:

After a customer submits, or if you're not seeing recent forms.

Steps:

1. Click **Refresh** button
2. Table reloads
3. Latest submissions appear at top

Note:

- The dashboard does NOT auto-refresh
- Always click Refresh to see new submissions

WORKFLOW 6: LOGOUT

Steps:

1. Click **Logout**
2. You'll be redirected to login screen
3. Session is ended

Important:

- ✓ Always logout when done
- ✓ Don't leave dashboard unattended
- ✓ Protects customer data
